COVER LETTER

Dear Sirs,

We are pleased to present a suite of factoring services designed specifically for your company. We trust it will fully meet your expectations and business objectives.

RB Factoring provides the full range of factoring services. Under this proposal we offer factoring **with recourse**.

Under the factoring agreement, we will provide financing against assignment of receivables **of up to 100% of the issued invoice amount**.

This helps replenish your working capital and grant payment deferrals to your buyers, while protecting you from the risk of non-payment, with the option to derecognise the receivable at the moment it is assigned to the factor.

We will also take over **administrative management of your receivables**: monitoring timely repayment by your buyers and handling reminders in case of delays. You will receive prompt information via convenient reports on the status of your receivables and your buyers' payment schedule.

We look forward to a mutually beneficial and long-term partnership.
